

Cell Types

- hemocyte
- adult tracheal cell
- adult fat body
- secretory cell of the male reproductive tract
- 16-cell germline cyst in germarium region 2a and 2b
- male accessory gland main cell
- adult Malpighian tubule principal cell of lower segment
- epithelial cell
- adult ventral nervous system
- ejaculatory bulb epithelium
- male accessory gland
- cell body glial cell
- adult heart ventral longitudinal muscle
- adult Malpighian tubule principal cell of lower ureter
- Other
